

412 Series Signs

1SP41232 (Aluminum)

Description

The 412 (4 x 12 inch) series warning signs are available for telephone, CATV, and fiber optic buried cable and cable routes.

The telephone and CATV buried cable signs are vertical warning signs available in steel or aluminum. Both steel and aluminum versions have black print over a yellow background, and a clear coating for durability. The steel version has a pressure sensitive label attached to a painted (green) plate. The aluminum version is silk screened onto the plate.

The horizontal 412 cable route signs are aluminum and have black print over a yellow background, and a clear coating.

Fiber optic cable warning signs are available in aluminum only. These signs have black print over an orange background and a clear coating.
